Participation in these outings is based upon a student's behavior leading up to the scheduled event.

Behavioral Expectations & Reinforcement

Field trips and CBIs function as contingent reinforcers. Students must demonstrate appropriate behaviors in the days leading up to the trip to earn participation. Behaviors that may impact eligibility include, but are not limited to:

- Engaging in unsafe or disruptive behaviors that interfere with learning or community participation.
- Repeated instances of non-compliance despite individualized support.
- Physical aggression, elopement, or other behaviors that pose a risk to the student or others.

Parent Communication & Decision-Making

SFA-Center will regularly monitor student behavior and provide necessary support and interventions to help students succeed. If a student is not meeting behavioral expectations, parents/guardians will be notified in advance. Decisions regarding participation will be based on data collection, behavior tracking, and staff observations.

Should the camper be unwilling, unable, or choose to forgo the designated field trip, alternate accommodations are not available and no refund is given.

When a physician specifies that medication be administered during the center day, the center should be contacted, and the following guidelines will be used to supervise medication administration in the center:

- All medication should be brought to the Office at the beginning of the day, by a responsible adult, accompanied by a signed and dated Emergency Card, giving the center permission to administer the medication. Send only a 5-day supply (5 camp days)
- The medication must be in the original container, with a prescription label that includes the following information: the child's full name, name of the medication, prescription number, dosage, and time to be administered.
- Emergency medication will be administered when ordered by the family physician or the center physician.
- Please notify the center of any medication changes. A nurse or trained staff member as designated by the director distributes medication in all circumstances.
- Students are not permitted to bring nonprescription medications to the center. If during the day, it is necessary for a student to receive nonprescription medication i.e. Tylenol, a trained staff member will dispense the medication as indicated on the Emergency Card.

Parents must notify the center of any allergies or restrictions on nonprescription medications.
